Origins of Nature's Beauty: Essays by Alexander F. Skutch

By Skutch, Alexander F.

University of Texas Press, 1992. Hardcover. Book Condition: New. 1992. 292 pp. New hardcover. Alexander Skutch draws his examples from the natural wonders he knows best - birds, butterflies, and flowers. He shows how each uses beauty to attract mates or pollinators and repel or hide from predators - all instances where quality serves the goal of increasing the quantity of a species. More than this, Skutch offers intriguing evidence that animals may possess an aesthetic sense and consciously choose beautiful objects, just as humans do. These views, running counter to prevailing mechanistic explanations of natural processes, offer food for thought to both specialists and the general public. Illustrated by Dana Gardner, including four color plates.

Reviews

The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Mrs. Josiane Collins**

This ebook is wonderful. It typically does not expense too much. You wont really feel monotony at at any time of your own time (that's what catalogs are for relating to should you request me).
