Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.The Christian religion is one of the most powerful organizations in the world; it is certainly a force to be reckoned with in the United States. Most people in the west know something about Christianity; many people in the west were born into Christian families and raised as Christians. Many were not. Regardless of your understanding of the religion itself, it is important to understand the truth rather than what some people simply believe. The greatest truths that exist in life are so simple that a child will understand that it is real. The greatest truths in life are evident in some form or another throughout every civilization of men that has existed. The fact is, whether you are a believer in one religion or another, truth should hit your soul so thoroughly that it cannot be denied and it cannot be altered. I will not attempt to convert or promote religion on the following pages, instead we will explore what I am calling the malfunction of Christianity, but which is the malfunction of all religions on the face of the earth at some time and even still today.
