Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Regeneration of the Morgan Horse Of the three types of light horses which American breeders have developed during a century and a quarter, none stands higher in history, judged from the interest and affection which have been devoted to it, none has had a more direct and lasting influence on other types, none, in fact, has been more uniform in type, more prepotent in breeding, or more nearly a fixed breed than the Morgan horse. With an ancestry which must have been of the highest merit, reared on the limestone and granite hills of New England, imbued with remarkable endurance and stamina by a rigorous but invigorating climate, these little horses seventy-five years ago yielded to none in popularity and held first place in the actual money value placed on individuals and on the service fees of sires. Fifty years ago Morgan stallions were received in the Show rings of Kentucky with enthusiasm. Yet during the last twenty years the name of Morgan has been anathema among the horse breeders of Kentucky, the breed has been rarely seen in the Show ring at state and national fairs, and the live-stock press and many horsemen of authority have declared the Morgan to be an extinct race.
