By -

Troubador Publishing, United Kingdom, 2016. Paperback. Condition: New. UK ed.. Language: English . Brand New Book. Interested in our brains? Find out what we can learn from neuroscience and what myths to discard in Business Psychology in Action. Discover embodied leadership and learn how to appreciate and accommodate neurodiversity. From the inner mind to the outer limits, this book looks at global context and intercultural competence , as well as relating diversity to performance. Coaching can help clients to be at their best more consistently and contribute to safety-critical environments. This book segues into how risk builds in human behaviour through assumptions - and how to counter them. There is also a robust model to understand, assess and address the psychological elements of risk, and how it isn't just in high-risk environments where things go wrong. Business Psychology in Action looks at conflict from a more general perspective, as well as career derailers and how they intersect with organisational culture. Wondering how technology is changing coaching, assessment and development? A new school of thought suggests that psychology-based tools can be moved appropriately into client control. Business Psychology in Action also identifies the features of leadership that make for sustainable...
