Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.In the Preface of his admirable contribution to the Oxford History of Music (Vol. III.) the late Sir Hubert Parry writes: The seventeenth century is musically almost a blank, even to those who take more than the average interest in the Art; and barely a score of composers names during the whole time suggest anything more than a mere reputation to modern ears. Of course the distinguished author is speaking of the musical world in general, not of our own country s music only. I am inclined to think it is a little severe on us. I have always found that great interest is taken in the 17th century music and musicians of England. Surely the century which began with the great Madrigal school at its highest point, which saw the Masque at its best in Milton s Comus, which witnessed the supersession of the viol by the violin, and which, at the close, had to its credit the complete works of our greatest composer, Henry Purcell, ought not to be in any sense almost a blank, to English students at least.
