Pearson Education Limited, United Kingdom, 2015. Mixed media product. Condition: New. 4th edition. Language: English . Brand New Book. Data Structures and Abstractions with Java is suitable for one- or two-semester courses in data structures (CS-2) in the departments of Computer Science, Computer Engineering, Business, and Management Information Systems. This is the most student-friendly data structures text available that introduces ADTs in individual, brief chapters - each with pedagogical tools to help students master each concept. Using the latest features of Java, this unique object-oriented presentation makes a clear distinction between specification and implementation to simplify learning, while providing maximum classroom flexibility. Teaching and Learning ExperienceThis book will provide a better teaching and learning experience-for you and your students. It will help:Aid comprehension and facilitate teaching with an approachable format and content organization: Material is organized into small segments that focus a reader s attention and provide greater instructional flexibility. Keep your course current with updated material: Content is refreshed throughout the book to reflect the latest advancements and to refine the pedagogy. All of the Java code is Java 8 compatible. Support learning with student-friendly pedagogy: In-text and online features help students master the material.
