University of Ottawa Press, Canada, 2008. Paperback. Condition: New. Language: English . Brand New Book. In *Revolution or Renaissance* , D. Paul Schafer subjects two of the most powerful forces in the world - economics and culture - to a detailed and historically sensitive analysis. He argues that the economic age has produced a great deal of wealth and unleashed tremendous productive power; however, it is not capable of coming to grips with the problems threatening human and non-human life on this planet. After tracing the evolution of the economic age from the publication of Adam Smith's *The Wealth of Nations* in 1776 to the present, he turns his attention to culture, examining it both as a concept and as a reality. What emerges is a portrait of the world system of the future where culture is the central focus of development. According to Schafer, making the transition from an economic age to a cultural age is imperative if global harmony, environmental sustainability, economic viability, and human well-being are to be achieved.
