Brand New Book ***** Print on Demand *****.Among the many changes brought to American security policy by the attacks of September 11, 2001, is a shift in the strategic geography. Regions and nations that had been at the periphery of concern have taken on new importance because of their relationship to terrorists and the states that sponsor them. Nowhere is this more true than in Central Asia. Until recently, the United States paid very little attention to Central Asia. In this study, Dr. Elizabeth Wishnick, currently a Fulbright Visiting Scholar at Lingnan University, Hong Kong, assesses U.S. security interests and military activities in Central Asia. She notes that strengthening the Central Asian states against terrorism and assisting their transition to stable and prosperous nations are difficult and fraught with danger.
