## MURACH`S ASP.NET 3.5 WEB PROGRAMMING WITH C# 2008: TRANING & REFERENCE

Shroff Publishers/Murachs, 2008. Softcover. Condition: New. If you can create Windows applications using C#, you`re ready for this book. It will get you off to a fast start with web programming, no matter whether you`re coming to ASPNET 3.5 with a background in an earlier release of ASPNET, classic ASP, or Java servlets/JSP.or with no web background at all. In fact, by the end of chapter 4, you`ll know how to use Visual Studio 2008 to develop and test multi-page database applications for the web. No other ASPNET book gets you started that fast. But this book is more than a beginning book. By the time you`re done, you`ll have the professional skills you need to develop bullet-proof web applications for business. You`ll also find that this book does double duty as the best on-the-job reference book that money can buy. No other ASPNET book teaches you so much of what you`ll use every day.or so thoroughly. Everything you need to know to get going on web development Look at the table of contents, and you`ll see why we say that this book covers what you need to know to develop web applications at the professional level. That includes new 3.5 features like: Tools that make it easier to format web pages based on cascading style sheets (CSS) LINQ data sources that allow you to access data from any type of data source, not just databases The ListView and DataPager controls that allow for complex data handling that you couldn`t do before (one reviewer refers to them as "GridView and Repeater on steroids," if you`re familiar with those 2.0 controls) ASPNET AJAX basics that show you the benefits so you`re ready for indepth AJAX training Of course, it blends those new features with the classic features that...
