DEVELOPING ESSENTIAL UNDERSTANDING - MULTIPLICATION AND DIVISION FOR TEACHING MATHEMATICS IN GRADES 3-5

National Council of Teachers of Mathematics, U.S., United States, 2011. Paperback. Book Condition: New. 251 x 178 mm. Language: N/A. Brand New Book. Unpacking the ideas related to multiplication and division is a critical step in developing a deeper understanding. To those without specialised training, many of these ideas might appear to be easy to teach. But those who teach in grades 3-5 are aware of their subtleties and complexities. This book identifies and examines two big ideas and related essential...

Reviews

The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Mrs. Josiane Collins**

Complete guide! Its such a good go through. It is rally fascinating throug reading period of time. Its been written in an extremely basic way and is particularly only after i finished reading throug this publication throug which really changed me, change the way i really believe.

-- **Mrs. Macy Stehr**

This publication is wonderful. it was actually writtem very completely and beneficial. You may like the way the writer compose this publication.
