Embedded Systems Design with FPGAs

By Athanas, Peter / Pnevmatikatos, Dionisios

Condition: New. Publisher/Verlag: Springer, Berlin | This publication presents the most modern applications of field-programmable gate array devices (FPGAs) as deployed in the design of embedded systems. The coverage includes state-of-the-art material from both academia and industry on an wealth of topics. | This book presents the methodologies and for embedded systems design, using field programmable gate array (FPGA) devices, for the most modern applications. Coverage includes state-of-the-art research from academia and industry on a wide range of topics, including applications, advanced electronic design automation (EDA), novel system architectures, embedded processors, arithmetic, and dynamic reconfiguration. | Preface.- Widening the Memory Bottleneck by Automatically-Compiled Application-Specific Speculation Mechanisms.- Decimal Division using the Newton-Raphson Method and Radix-1000 Arithmetic.- Lifetime Reliability Sensing In Modern FPGAs.- Model-Based Performance Evaluation of Dynamic Partial Reconfigurable FPGAs.- Switch design for soft interconnection networks.- Embedded Systems Start-up under Timing Constraints on Modern FPGAs.- Run-Time Scalable Architecture for Deblocking Filtering in H.264/AVC - SVC Video Codecs.- CAPH: A Language for Implementing Stream-Processing Applications on FPGAs.- Compact Clefia Implementation on FPGAs.- A Systematic Method to Evaluate and Compare the Performance of Physical Unclonable Functions. | Format: Paperback | Language/Sprache: english | 444 gr | 234x155x16 mm | 278 pp.

Reviews

It is straightforward in read through preferable to fully grasp. It is really simplistic but excitement in the 50 percent of the pdf. Your life span will be enhance once you comprehensive looking at this pdf.

-- **Jorge Hammes**

Certainly, this is actually the greatest job by any author. It is definitely simplified but excitement inside the 50 percent of the book. I am just easily will get a delight of studying a composed pdf.

-- **Lelia Heidenreich**
