D. 117-161) I Thought at first that this Sixth Book would finish the series of volumes which I have devoted to the history of the origins of Christianity. It is certain that at the death of Antoninus, circa A.D. 160, the Christian religion had become a complete religion, having all its sacred books, all its grand legends, the germ of all its dogmas, the essential parts of its liturgies; and in the eyes of most of its adherents, it was a religion standing by itself, separated from and even opposed to Judaism. I, however, thought it right to add a last work, containing the ecclesiastical history of the reign of Marcus Aurelius, to the preceding books. In the truest sense, the reign of Marcus Aurelius belongs to the origins of Christianity. Montanism is a phenomenon of about the year 170, and is one of the most notable events of early Christianity.
