

Food Properties and Computer-Aided Engineering of Food Processing Systems

Filesize: 2.24 MB

Reviews

Simply no phrases to describe. It is actually rally interesting throgh reading time period. Your lifestyle period will probably be transform the instant you complete reading this article book.

(Rowland Bauch)

FOOD PROPERTIES AND COMPUTER-AIDED ENGINEERING OF FOOD PROCESSING SYSTEMS

To read **Food Properties and Computer-Aided Engineering of Food Processing Systems** PDF, you should refer to the hyperlink listed below and download the document or have accessibility to other information which are highly relevant to FOOD PROPERTIES AND COMPUTER-AIDED ENGINEERING OF FOOD PROCESSING SYSTEMS ebook.

Book Condition: New. Publisher/Verlag: Springer Netherlands | Proceedings of the NATO Advanced Research Workshop, Porto, Portugal, October 16-21, 1988 | Food properties, whether they concern the physical, thermodynamic, chemical, nutritional or sensory characteristics of foods, play an important role in food processing. In our quest to gain a mechanistic understanding of changes occurring during food processing, the knowledge of food properties is essential. Quantitative information on the food properties is necessary in the design and operation of food processing equipment. Foods, because of their biological nature and variability, vary in the magnitude of their properties. The variation in properties offer a challenge both in their measurement and use in the food processing applications. Often a high level of precision in measurement of properties is not possible as the measurement method may itself cause changes to the product, resulting in a variation in the obtained values. Recognizing the difficulties in measurement of food properties, and the lack of completeness of such information, several research programs have been in existence during the last two decades. In Europe, a multinational effort has been underway since 1978. The first project supported by COST (European Cooperation in the Field of Scientific and Technical Research), was titled COST 90 "The Effect of Processing on the Physical Properties of Foodstuffs". This and another project COST 90bis have considerably added to our knowledge of measurement methods and data on a number of physical properties. Two publications that summarize the work conducted under 1 2 these projects are Physical Properties of Foods and Physical Properties of Foods . | 1. Role of food properties in thermal processing of foods.- Measurement and prediction of thermal properties of foods.- Food properties, heat transfer conditions and sterilization considerations in retort processes.- Dielectric properties and microwave processing.- Heat penetration and bacteriological properties of...
