Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Sin Not is basic fiction, however, it is based on true stories, but taken out of true context, in other words, the events actually did happen, but the situations and the names have been changed. The direct perspective upon putting such a writing out is understanding. The Bible says, that to gain full knowledge, and to gain all of the resources that you can, but above all, get understanding, what this means is, many people have this idea that what they are doing is fine, not realizing the situation can have severe consequences down the road, what happens, when you get to the edge of fun, and it is no longer fun? But, what Happens, if you find this out before you get involved? To get a clear understanding, the situation has to be set there, in a way or fashion, that is easy to take in and to understand, but having it done this way, you get to see in words, how life turned out for these people, some good, some bad, all based on what they thought was right. there could have been tons of scripture placed into this work, but this is not the fulfilled destiny of the writing, understanding, in a short format, was the undertaking here, a brief word that said, this is what was put before me, this is what I decided, and this is what the outcome was, then, the circumstances are that, these people wanted the readers to have a better life by not doing what they did.
