Prompt global strike (PGS) would allow the United States to strike targets anywhere on Earth with conventional weapons in as little as an hour. This capability may bolster U. S. efforts to deter and defeat adversaries by allowing the United States to attack high-value targets or fleeting targets at the start of or during a conflict. Congress has generally supported the PGS mission, but it has restricted funding and suggested some changes in funding for specific programs. This item ships from La Vergne, TN. Paperback.
