China's Urban Transition

By John Friedmann

University of Minnesota Press, United States, 2005. Paperback. Book Condition: New. REV and Revised.. 226 x 147 mm. Language: English . Brand New Book. Though China's urban history reaches back over five thousand years, it is only in the last quarter century that urbanization has emerged as a force of widespread social transformation while a massive population shift from country to city has brought about a dramatic revolution in China's culture, politics, and economy. Employing a historical perspective, John Friedmann presents a succinct, readable account and interpretation of how this transition - one of the most momentous phenomena in contemporary history - has occurred. China's Urban Transition synthesizes a broad array of research to provide the first integrated treatment of the many processes that encompass the multi-layered meaning of urbanization: regional policy, the upsurge of rural industries, migration, expanding spheres of personal autonomy, and the governance of city building. John Friedmann's detailed analysis suggests that the nation's economic development has been driven more by social forces from within than by global capital. This leads directly to the epic story of rural migration to major urban regions, the policies used to restrain and direct this avalanche...
