SELECTED EDUCATIONAL MOTION PICTURES: A DESCRIPTIVE ENCYCLOPEDIA (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Selected Educational Motion Pictures: A Descriptive Encyclopedia When the Committee on Motion Pictures in Education of the American Council on Education undertook the study of problems related to the use of motion pictures in general education it quickly discovered that lack of essential information on available films was one of the obstacles to effective, integrated use in the curriculum. The survey of 16-mm. films available to schools and the evaluation of those films under actual classroom conditions were inaugurated by the Committee under a grant of funds from the General Education Board. In this publication the results of the survey and evaluation are presented in the form of a descriptive encyclopedia of approximately 500 films which have met the criteria of evaluation set up by the Committee in its early deliberative meetings. The film evaluation program was carried on over a three-year period with the cooperation of schools and school systems, representing various parts of the country and various viewpoints on the curriculum. The Committee has operated through the staff of the Motion Picture Project, Charles F. Hoban, Jr., director.
