Reviews

It becomes an incredible publication that we actually have at any time read. It is one of the most incredible book i actually have go through. I am just delighted to tell you that this is actually the finest pdf i actually have read through within my personal life and might be he finest publication for actually.

(Prof. Hilma Robel)

CINEMASCOPE ONE: STUPENDOUS IN SCOPE

Lulu.com. Paperback. Book Condition: New. Paperback. 176 pages. The first book in John Howard Reids CinemaScope series does provide some neat black-and-white reproductions of contemporary posters. Most of all, of course, it details some very interesting indeed essential anamorphic films, plus some equally important widescreen attractions of the 1950s and 1960s. Leading anamorphic movies covered in exhaustive detail include And God Created Woman, Auntie Mame, Ballad of Josie, The Black Shield of Falworth, Comanche Station, Hombre, How To Steal a Million, Imitation General, John and Mary, Kissin Cousins, The Last Hunt, The Lion, Lola Montes, Love Is a Ball, Manhattan, Man of the West, Marooned, McCabe and Mrs Miller, Never So Few, Never Too Late, No Love for Johnnie, No Sun in Venice, Plunder Road, Merry Andrew, Raggedy Ann and Andy, The Son of Cleopatra, Star Wars, Summer Holiday, The Swan, 10 North Frederick, Tess of the Storm Country, They Came to Cordura, The Three Faces of Eve, Tickle Me, Tony Rome, 20, 000 Leagues under the Sea, 23 Paces to Baker Street, Will Success Spoil Rock Hunter, The Wreck of the Mary Deare, The Year of Living Dangerously, The Yellow Rolls Royce, You Cant Run Away from It. You Lucky People, and Zulu Dawn. Widescreen movies lovingly recalled and described include Gorilla at Large (in 3-D), Inferno (also 3-D), Johnny Nobody, Morituri, Pal Joey, Robin and the Seven Hoods, and Strategic Air Command (in VistaVision). In addition to CinemaScope, other anamorphic processes are described. Also summarized is the historic press conference given by Professor Ernst Abbe in which Abbe pointed out that Fox had wasted well over six million dollars developing CinemaScope when they could have used a similar but far, far superior process (namely Franscope or Naturama) entirely free of charge, except for the comparatively piffling cost of...
