Reviews

This is actually the very best book i actually have read till now. This is for all those who statte that there was not a worth studying. Its been written in an remarkably straightforward way which is merely following i finished reading this publication by which in fact altered me, modify the way i believe.

(Mr. Jeramy Leuschke IV)

SPIRIT COMMUNICATION A GUIDE TO CHANNELING (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. There has been over the past few years quite a bit of hype on channeling. Some see it as bad and others see it as a means of conveying messages and encouragement. Scientifically there has been research done on those who claim to be able to convey messages from the higher level. The evidence and resources that have made it possible for science to validate channeling is recognized through the energy fields or auric arenas of the body. There is a vibrational pulse or formula that is met and through specific filming there have been times when the individual doing the filming and preparation will show signs of being on a different dimension and able to move past all the limitations that are held via the opening up the road work of greater work that we have brought to the immediate foreground.
