Solis Press, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. William Kingdon Clifford, FRS (1845-79) was an English mathematician and philosopher. His areas of research were very wide ranging and in this book, published posthumously, he demonstrates his interest in applying rational and scientific thought to the moral and ethical questions of human existence. The book republishes four of Clifford's essays: The Scientific Basis of Morals Right and Wrong: The Scientific Ground of their Distinction The Ethics of Belief The Ethics of Religion Even in our own post-modern age , it may be appropriate to reflect on Clifford's maxim of it is wrong always, everywhere and for anyone, to believe anything upon insufficient evidence . Perhaps humanity should apply Clifford's thought processes to the present-day problems of religious extremism, climate change and fake news . This edition features short footnotes adding some explanations to the terms used in the original publication.
