Reviews

This pdf is definitely not easy to get started on studying but quite entertaining to read through. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Master Point Press, Canada, 2007. Paperback. Book Condition: New. 213 x 137 mm. Language: English . Brand New Book. Chthonic, the bridge-playing computer is back! This time he is attempting to teach humans a little about the game of bridge - not in order to turn them into competent players, because he knows that is impossible. But he thinks he may be able to get the reader to the point where his mobile phone won't laugh at him behind his back (it does, you know). Each chapter of this wickedly funny book highlights a different human bridge error, and points out why and how it should be avoided. Chthonic Chthonic, the irascible bridge-playing computer, modestly describes himself as the world's best bridge player. Danny Kleinman Danny Kleinman of Los Angeles is a prolific bridge writer, theorist, professional player, and teacher, who is a regular contributor to several bridge magazines. He is a Contributing Editor of The Bridge World, and is one of the moderators of The Master Solvers Club in that magazine. He also writes about backgammon, another game which he plays at an expert level. Nick Straguzzi Nick Straguzzi of Mullica Hill, NJ, is a software analyst specializing in artificial intelligence and knowledge management. Nick has researched ways in which computer game theory could be applied to bridge, but concluded that it would be far easier to write about a perfect bridge-playing computer than to actually build one.
