Summary: The standard approach that the medical world uses for the standard diseases has not worked and will not work to cure Fibromyalgia Syndrome (FMS). The standard medical approach is to use medications or physical therapies to deal with the symptoms, and that does nothing for the source or the cause of FMS. When you look at what the medical world does to identify a disease - like blood tests, x-rays, biopsies, cerebral spinal fluid analysis, etc. - virtually every standard test the medical world does for FMS shows negative. That is why for years even the existence of FMS was in question. Now there are brain scans that show some positive findings for the existence of FMS. These brain scans even though they show FMS exists, they won't help the Fibromyalgia patient find a cure. When I say cure I mean cure. If you or someone you know is diagnosed and suffering from FMS, there is a way to get back to the natural state of a human being, which is healthy, pain free, full of dynamic energy, sleeping great and waking refreshed. This natural state of health can never be achieved by dealing with the symptoms of FMS with medications. When you look at the horror that people with FMS have endured, you have to feel great compassion. Imagine going to doctor after doctor, and negative test after negative test, and taking medications, and suffering the whole time, and then being sent to the psychiatrist because if the tests are negative it must be a mental condition. And this happens all the time! Fibromyalgia patients suffer physical pain, but perhaps the greatest pain is not being heard. For them, it...
