

Is God Really Legit?: Making Sense of Faith and Science (Paperback)

By Neil Laing

Instant Apostle, United Kingdom, 2018. Paperback. Condition: New. Language: English . Brand New Book. God and science - you can't really believe in both, right? Or can you?? Is God Really Legit? asks the tough questions and gives you the info you need to decide. Do miracles happen? Is the earth 6,000 years old? What about the Big Bang? Who is God? And where? Is it creationism or evolution? Why Genesis 1? Is faith blind? What is `faith anyway? Delving into all these questions and more, Neil Laing puts both God and science under the microscope. Exploring literal approaches to the Bible and purely scientific views of the world, he reveals how each has misunderstood the nature of faith and their own limitations. Might it be that a correct understanding of one actually builds faith in the other? When it comes to belief in God, Neil shows that faith and science really do add up!
