

When Your Horse Rears: How to Stop It (Paperback)

Filesize: 7.18 MB

Reviews

This is the best book i have read until now. It can be filled with knowledge and wisdom Once you begin to read the book, it is extremely difficult to leave it before concluding.

Createspace Independent Publishing Platform, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Does it scare the devil out of you when your horse throws himself in the air? It should! Wanna make riding fun again? You can! But how? How do you fix this -- when the very touch of the reins sends your horse up and over? When things escalate so fast? Start by asking yourself what you were doing seconds before your horse reared the last time. The odds are pretty good you were trying to stop or back up - and you were applying even pressure on both reins as you asked. In When Your Horse Rears: How to Stop It we ll train your horse to accept pressures typically associated with stopping and backing and the like. We ll learn the theory and practice allowing us to soften and relax our horse, giving us greater control over his mind and various body parts. We ll teach respect for the bit while building smooth transitions from standing to walk to trot to lope. In the end, you ll be able to make ordinary requests, (to stop or back, for instance), without fear that your very pressure is an overt invitation to rear up. In fact, once you ve put the time in, you ll be amazed at the difference made in your overall control, safety and enjoyment. With this guide, you will teach your horse to: - Keep his feet on the ground! - Deal (well) with increased pressure - Pick up the correct leads - Move his hips independently - Drop his head immediately You can t make your horse stop rearing with a bigger, badder bit. You ve got to retrain the brain. This downloadable book shows...
