Excerpt from A Memoir of John Patten Emmet, M.D: Formerly Professor of Chemistry an Materia Medica in the University of Virginia, With a Brief Outline of the Emmet Family History A large portion of the material utilized in this memoir was collected years ago to form a history of the Emmet family, which was intended only for the children of the writer, and with the hope on his part of encouraging the sentiment set forth in the dedication. But the writer having been requested to prepare for the Bulletin of the University of Virginia a sketch of his father, who was many years professor in that institution, he found it necessary, in complying with the request, to make many changes. To condense the memoir within the limited space for the periodical it was necessary to omit much valuable material. The sketch prepared for the Bulletin developed into this volume, that the omissions might thus be preserved. To utilize for the same purpose many family letters and documents of the greatest value, and which could not be used in the memoir of Dr. Emmet, an extended history of the Emmet family was finally written and published. The memoir now presented forms a portion of this family history, and a limited number of copies were reprinted at the time of the publication of the larger work.
