

Dwarf Galaxies: Keys to Galaxy Formation and Evolution

Filesize: 5.85 MB

Reviews

This ebook is fantastic. It is actually written in straightforward terms rather than hard to understand. It has been designed in an extremely straightforward way and it is merely soon after I finished reading through this ebook through which in fact modified me, altered the way I really believe.

Condition: New. Publisher/Verlag: Springer, Berlin | Proceedings of Symposium 3 of JENAM 2010 | Dwarf galaxy research constitutes an extremely vibrant field of astrophysical research, with many long-standing questions still unsettled and new ones constantly arising. The intriguing diversity of the dwarf galaxy population, observed with advanced ground-based and space-borne observatories over a wide spectral window providing an unprecedented level of detail, poses new challenges for both observers and theoreticians. The aim of this symposium was to bring together these two groups to exchange ideas and new results on the many evolutionary aspects of and open issues concerning dwarf galaxies. The main topics addressed include: the birth of dwarf galaxies: theoretical concepts and observable relics across wavelengths and time, the morphological, structural and chemical evolution of dwarf galaxies, possible evolutionary connections between early-type and late-type dwarfs, the star formation history of dwarf galaxies and its dependence on intrinsic and environmental properties, the origin and implications of starburst activity in dwarf galaxies, the fate of dwarfish systems born out of tidally ejected matter in galaxy collisions. | Part I General Properties of Dwarf Galaxies.- Outstanding Questions in Dwarf Galaxy Research.- The ISM of Dwarf Galaxies.- Part II Dwarf Galaxy Models.- Predicting the frequencies of young and of tiny galaxies.- The Chemical and Dynamical Evolution of Isolated Dwarf Galaxies.- Formation and evolution of gas-rich dwarf galaxies.- Flat Metallicity Profiles in Rotating Dwarf Galaxies.- The formation of ultra-compact dwarf galaxies and nucleated dwarf galaxies.- Morphological Mutations of Dwarf Galaxies.- Part III Dwarf Galaxies in the Local Group.- Stellar archeology: a cosmological view of dSphs.- Constraints on the Effects of Reionization in the Star Formation History of Dwarf Galaxies: some Conclusions from the LCID Project.- The Sagittarius Dwarf Galaxy as a Product of Tidal Stirring.- Spatial Distribution of Stellar Components in the Magellanic Clouds.- Origin and Evolution...
