

Metaphysics (Hardback)

By Asiste Celkyte

Macat International Limited, United Kingdom, 2017. Hardback. Condition: New. Language: English . Brand New Book. Aristotle s Metaphysics is a collection of essays on a wide range of topics, almost certainly never put together by Aristotle himself. This helps to explain why the material covers such a very wide range of material, from meaning to mathematics, from logical sequences to religion. It includes very useful treatments of the nature of axioms (or primary truths) such as the law of non-contradiction and the laws of logic. In looking at these, Aristotle provides sustained guides to clear thinking as would be evidenced in analysis and evaluation of arguments and the production of good reasoning. He also provides some valuable discussion of interpretation by looking at homonyms (as in `this knife is sharp and `this note is sharp) and what he calls `paronyms, which lie between homonyms and synonyms: an example is the word `healthy . Metaphysics is also useful to study for its frequent examples of hypothetical reasoning, including their use in mathematics (`if x, then y. ) and science ( `if a moves b, then b moves c. , so what moves a?). In addition, we find Aristotle analysing Plato s...
