Lulu.com, United States, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Religion has long used spiritually-inspired stories to explain the universe and our place in it. As science began challenging religious beliefs, both sides dug in: Science said religion was for the weak minded. Religion said science was wrong. Using a series of personal experiences with the paranormal, our author shows how both can be used together to validate/debunk such events. In the end, this approach reveals the realities behind hauntings, post-death visits, exorcisms, karma, reincarnation and various other religious phenomena.all written in a relaxed conversational manner. It s an easy read, but there s a lot of depth too. It will definitely expand your view.
