Excerpt from National Institute of Dental and Craniofacial Research, Division of Intramural Research: Annual Report Summary, Fiscal Year 1999 The laboratory space in Buildings 30 and 10 has remained essentially unchanged since 1961, the same year that Building 30 opened. The Division has therefore begun phasing in a comprehensive renovation program that will bring the current research space up to modern standards. FY 1999 marked the first full year of renovations in both Building 30 and in Building 10 and the first few laboratories have been completed with truly astounding results. At this time, renovation projects are in progress on virtually every oor of nidcr space. The renovation has been immensely important for the program as a whole and has greatly enhanced the spirit and morale of the scientists who are now working in space that matches the high quality of their research.
