By American Electric Association

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm.

Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1916 Excerpt: . material, but as comprehensive specifications would lead into very complex details and of laboratory analysis, far beyond the range of practicability for the average electric road, it has seemed best merely to outline a general classification and point out the leading characteristics of each class of material, with a description of such practical tests as would be within the reach of all. Classification Of Insulating Materials Insulating materials may be covered by the following classification: Insulating Varnishes Air Drying Varnishes.--Linseed oil or other drying oils, with such driers and treatment as to dry quickly without necessity for baking . Baking Varnishes.-- Linseed oil or other drying oils, with gums and driers. Requires baking. Spirit Varnishes.--Animal or vegetable gums, shellac, copal, etc., dissolved in alcohol, amyl acetate, benzine, etc. Insulating Paints.--Solutions of asphalt, and mineral gums in carbon bisulphide, naphtha, etc. Impregnating Compounds.--Petroleum asphalt, melting point 105 to...
