Brass-Furnace Practice in the United States (Classic Reprint) (Paperback)

By H W Gillett

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Brass-Furnace Practice in the United States According to the Thirteenth Census, in 1909 there were in the United States firms that dealt mainly in brass and bronze. This total included jobbing foundries, manufacturing plants that both cast and machine a brass or bronze product, and rolling mills, but did not include iron foundries having nonferrous departments nor the numerous large brass-foundry departments of manufacturing plants that produce the castings used in the manufacture of electrical apparatus, cash registers, pumps, and the thousands of machines that require brass castings for their construction. Fenton s Foundry List for 1910 gives about exclusively nonferrous foundries and about iron or steel foundries that also melt brass. If the rolling mills and Jobbing foundries in manufacturing plants be included, and if due credit be given to the rapid growth of the industry in the last few years, largely through the stimulation of the automobile business, it is probable that not less than plants are to-day melting brass or bronze. The plants vary in size from the small shop using only one small furnace and employing...
