Excerpt from Lessons in Music Form: A Manual of Analysis of All the Structural Factors and Designs Employed in Musical Composition The present manual treats of the structural designs of musical composition, not of the styles or species of music. Read our afterword. It undertakes the thorough explanation of each design or form, from the smallest to the largest and such comparison as serves to demonstrate the principle of natural evolution, in the operation of which the entire system originates. This explanation - be it well understood is conducted solely with a view to the Analysis of musical works, and is not calculated to prepare the student for the application of form in practical composition. For the exhaustive exposition of the technical apparatus, the student must be referred to my Homophonic Forms.
