Createspace, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Is there a way for science and religion to complement one another? Does quantum physics have any place in the Bible? Do biblical interpretations have any use in explaining scientific observations? Is quantum physics unknowable to religious minds? Must a scientific mind also be void of religion? Is there an unseen world that exists all around us? Do things like strings, branes, multiple dimensions, parallel universes, time warps, quantum entanglement, and extradimensional beings have any place in biblical descriptions of God's creation? These questions and more are addressed in Quantum Creation. For the first time ever, the study of quantum physics is made available to the religious mind while explaining theological implications. Even better yet, the information is presented in a way anybody can understand. Learn just how perfectly compatible science and religion can be and why it seems they are always at odds. Discover what really makes up everything in existence as reality itself is examined at a quantum level. Find out if things like time travel are scientifically and biblically possible. What is presented in Quantum Creation is the answer to how science and religion really can go hand in hand. Finally, a way to look at the strange and fascinating world of quantum physics from a biblical perspective is here. Includes Interviews with: Kenneth Johnson - Original Creator of V and Alien Nation, Dr. Ronald Mallett - Professor and Theoretical Physicist, Dr. Ken Johnson - Biblical Researcher and Author.
