ADVANCES IN MODELING

LAP Lambert Acad. Publ. Apr 2010, 2010. Taschenbuch. Book Condition: Neu. 220x150x9 mm. Neuware - This book describes various advanced techniques for successful modeling & simulation of fission product activity (FPA) in primary circuits of typical Pressurized Water Reactors (PWRs). Fission product activity is ranked as the second leading source of radiation exposure to nuclear power plant workers. This book describes both deterministic as well as dynamic approached for simulation of fission product activity. Details of mathematical models and the...
