DECLARATIVE NETWORKING (PAPERBACK)

Morgan Claypool Publishers, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book. Declarative Networking is a programming methodology that enables developers to concisely specify network protocols and services, which are directly compiled to a dataflow framework that executes the specifications. Declarative networking proposes the use of a declarative query language for specifying and implementing network protocols, and employs a dataflow framework at runtime for communication and maintenance of network state. The primary goal of declarative networking is...
