Excerpt: . . . collected during the breakout sessions. Team leaders at the workshop gave a summary recap of these sessions during session 7 (see section 4. 4). 2. THE FAA BONDED STRUCTURES RESEARCH EFFORTS. 2. 1 OVERVIEW. The Bonded Structures Workshop in June 2004 was held prior to drafting the policy in order to gain industry agreement on the critical technical issues for bonding and collect inputs on successful engineering practices. The detailed engineering background on bonding will be documented in a series of FAA William J. Hughes Technical Center reports with the help of industry. The current report represents the first of these documents. The FAA efforts in bonded structures will continue beyond 2004. The next major milestone for regulatory guidance on bonding is scheduled for 2008. The current plan is to update policy and release an advisory circular for bonded aircraft structure at that time. Training will also be updated by 2008. Focused...
