Excerpt from Hitt s Electro Dynamics, or Electricity the Universal Cause of Motion in Matter: Illustrative of the Diagnosis and Treatment of All Diseases, the Motions of the Planetary System, the Laws of Gravity, Polarization of the Needle, Climate and Physiology In making public the following suggestions, it will be seen that it has been done with a conviction that it is a principle which, instead of overturning that practice which is acknowledged by our schools, is one (at least in the estimation of the author) that is calculated to place that practice in an attitude in which its most mysterious phenomena is rendered easy of solution. That there are definite laws governing disease and its remedies is acknowledged by all, and to ascertain these laws has been the object of years of investigation, the result of which is now placed before you. That it is correct in all its parts is not claimed, yet experience in most of the diseases of our climate has sustained the reasoning that the principles are in accordance with the established laws of nature. Did the deductions legitimately be longing to the principles laid down, overturn or set aside one single established fact connected with the practice of medicine, it would have led to doubt; but it is believed that there is not a single discrepancy from the authenticated practice, while the cause of failures in many admitted cases is made apparent.
