The Pathology and Prevention of Influenza (Classic Reprint) (Paperback)

By Julius Althaus

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Pathology and Prevention of Influenza I purpose to show in this paper that the symptoms of influenza are owing to the action in the system of a special poison secreted by a pathogenous bacillus that this poison has a special affinity to a definite centre of the nervous system, which is irritated and depressed by it; that an antidote which is able to neutralise the effects of the poison is formed in the blood of the patient, and tends to effect a spontaneous cure of the disease and that the nearest approach to this antidote which we at present possess appears to be animal vaccine lymph, which should therefore be used as a preventive of influenza, in case another epidemic of that distemper should break out in the country. Reviews

An incredibly great ebook with lucid and perfect explanations. It is actually rally fascinating through studying period of time. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Josefina Yundt**

Extremely helpful for all class of people. It is probably the most incredible ebook i actually have go through. I discovered this publication from my dad and i recommended this ebook to discover.
