Reviews

A really great publication with lucid and perfect reasons. I have read through and i am confident that i am going to gonna read yet again yet again down the road. It is extremely difficult to leave it before concluding, once you begin to read the book.

Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Field and Laboratory Data on Some Podzol, Brown Podzolic, Brown Forest, and Gray Wooded Soils in Northern United States and Southern Canada Some time ago soil scientists generally recognized the need for much clearer distinctions in definition among soils in the Podzol, Brown Podzolic, Brown Forest, and Gray Wooded groups. definitions of these groups are of course closely related to definitions of the adjoining great soil groups, such as Gray Brown Podzolic, and the associated azonal and intrazonal soils. Basically we need to improve our understanding of the morphological and genetic relationships among these soils. Several soil scientists in Canada, in the United States Department of Agriculture, and in the State agricultural experiment stations have important responsibilities in this work. Several new studies have been published in recent years, including the current year. Besides those included in these publications, other data have been obtained in the field that have not been published, data that may be very useful to many soil students. Of course additional data are needed, and those already available need to be used. It does not appear that anyone is yet in a position to develop definitive conclusions. It is thought that the data in this pamphlet may be useful to many people able to contribute to an understanding of the problem through study in advance of a new interpretation. Thus this pamphlet is intended wholly as a working tool for soil scientists concerned with these groups of soils. It is clear from the table of contents that representative soils were examined in several parts of northern United States and southern Canada. Some of the gaps are already covered, in recent literature, at least partially, and...
