Wolfedale Press, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Learning to read a language with a foreign alphabet can be an intimidating challenge. Even before you can start to study the vocabulary and grammar, you must first decipher this strange new script. But learning a new alphabet does not have to be so difficult. Other language courses start by showing a table of the alphabet and then immediately proceed to dialogues and grammatical descriptions. This is not the ideal way to teach a foreign alphabet, and this approach causes many students to get frustrated and give up before they start. Instead of that approach, Learn to Read Arabic in 5 Days teaches each letter of the Arabic alphabet in a systematic way while providing enough practice along the way to ensure the student learns the entire alphabet. With this system you will be able to read the Arabic alphabet in only 5 days or less! In addition to the alphabet, this course teaches more than 150 real Arabic words that were carefully selected to be of maximum benefit to beginning language students. These are the words that you need right away. Order a copy of Learn to Read Arabic in 5 Days today and start to enjoy the Arabic language and culture in a way that only reading the language makes possible.
