Academic Foundation, 2005. Hardcover. Condition: New. Internationally recognised expert and one of India's most distinguished economists, C.H. Hanumantha Rao has contributed immensely to a better understanding of India's economy. Often quoted over the years, his meticulously prepared research papers and analytical writings have enlightened students, senior researchers and policymakers alike. It is only most appropriate that a good majority of his relatively less accessible, although academically most relevant, writings are collected, thematically arranged and presented together at one source. The present volume is an humble attempt towards this end along with a recently published 'companion' volume entitled 'Essays on Development Strategy, Regional Disparities and Centre-State Financial Relations in India.' Together, these volumes are a perfect tribute to the rare scholarship of this most unassuming, yet most outstanding scholar, on his 75th birthday. Contents Introduction I. AGRICULTURAL GROWTH : 1. Agricultural Performance and Emerging Perspectives 2. Agricultural Policy under the Plans 3. Agricultural Growth and Stagnation in India 4. Problems of Agricultural Production in Kerala 5.
