

## The American mathematical monthly the official journal of the Mathematical Association of America Volume 11

By Mathematical Association America

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 66 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1904 edition. Excerpt: . . . W. GREENWOOD. B. A. (Oxon). Professor of Mathematics and Astronomy in McKendree College, Lebanon, 111. , and W. W. LANDIS, Dickinson College. Carlisle, Pa. AB cuts any one of the sides of the triangle produced, say PQ, in X. Determine the point harmonically separated from X by P and Q and call this point r. The line joining R and Y cuts AB in the required point G. For the sheaf CX, CP, CY, GR being harmonic it is cut by any line parallel to CX in four harmonic points one of which is at infinity, therefore the remaining three points intercept equal segments. Also solved by F. D. Posey, San Mateo, Cal. ; R. A. Wells, Hellenic. Neb. ; and G. B. M. Zerr, Parsons, W. Va. CALCULUS. 176. Proposed by B. F. FINKEL. A. M. . M. Sc, 204 St. Marks Square. Philadelphia....
