Foster Academics, 2015. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This book provides elaborative information on embryonic cells. Embryonic stem cells require methods and protocols to turn these unspecialized cells into fully functioning cell types found in a wide variety of tissues and organs. This book presents an overview of contemporary research on differentiation of embryonic stem cells to a wide variety of cell types, including endothelial, osteogenic, and hepatic cells. Also, induced pluripotent stem cells and other pluripotent stem cell sources have been described. The book will prove to be a valuable resource for engineers, scientists, and clinicians as well as students in a wide range of disciplines.
