Reviews

A top quality publication along with the typeface utilized was intriguing to read through. It is amongst the most awesome pdf i have got read through. Its been developed in an remarkably straightforward way and it is only right after i finished reading this publication in which actually altered me, modify the way i believe.

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Code of Fair Competition for the Coal Dock Industry as Approved on March 16, 1934 The operations of the Coal Dock Industry consist of the unloading of coal from vessels by the use of dock machinery and equipment and dock labor, storing, processing the coal where necessary, and reloading it into railroad cars or trucks and, in some instances, into vessels or tugs for bunker coal. In the New England Division where navigation is open all year around, the docks are comparatively small Since only a small amount of coal needs to be Stored upon them sufficient to insure continuous operation between the arrival of vessels. In the Northwest Division where navigation on the upper lakes is closed from approximately December 1st to May 1st of each year on account of frozen harbors, the docks are comparatively large as they must provide sufficient storage capacity to supply the communities of the Northwest with coal through their bitter winters. Our Planning and Research Division reports that the Coal Dock Industry sold approximate] tons of coal in 1929 valued at as compare with tons in 1933 valued at The reduction in tonnage and value since 1929 is due to severe competition with oil and gas as well as the general business depression.
