VACCINES - DENTAL CARIES

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Caries vaccine | Streptococcus mutans has been identified as the major etiological agent of dental caries. The evidence of a specific bacterial cause of dental caries and of the function of the salivary glands as an effector site of the mucosal immune system has provided a scientific basis for the development of a vaccine against this highly prevalent and costly oral disease. Research efforts towards developing an effective and safe caries vaccine...
