Read Books, United Kingdom, 2008. Hardback. Book Condition: New. 218 x 142 mm. Language: English . Brand New Book ***** Print on Demand *****.PREFACE: IN the present volume, dealing with the Chemical Technology of the Textile Fibres except as concerns the dye-stuffs, which will be treated in a separate work, the author has been obliged to condense the available matter as much as possible, in order to preserve the form of a text-book. Nevertheless, it seemed necessary, in certain cases, in the interests of the book, to give definite data and an exact description of individual processes. In such instances the details have been gathered exclusively either from the authors personal experience or from reliable sources. The most important part of the book is the chapter treating of dyeing, whilst, on the other hand, the subject of printing had to be dealt with in a more general fashion, the materials being less suitable for treatment in text-book style. The author thinks it desirable to point out that in the present work an attempt has been made to completely separate the chemical and mechanical technology of the subject, a standpoint he considers justified by the extensive area occupied by each of these branches. Hence only a few sketches of apparatus have been given and the methods of dressing the finished goods have been described very briefly, since they almost entirely belong to the domain of mechanical technology. .GEOEG VON GEOEGIEVICS. Artificial Fibres . Mineral, . Vegetable Cellulose. Cotton . . . Bombax Cotton . Vegetable Silk . . Flax .- . . . Hemp Jute Ramie, Rhea, China Grass, Nettle Fibre . Contents include: CHAPTER I THE TEXTILE FIBRES Distinguishing Tests for the Various Fibres Animal Fibres . Silk . . Animal Hairs . Sheeps Wool . Goat Wool...
