The Future of the Gun

By Frank Minitier

Tantor Media, Inc, United States, 2014. CD-Audio. Condition: New. Unabridged edition.

Language: English . Brand New. The history of the American gun is intricately entwined with the history of America itself, and the potential future developments in gun technology could change the world. However, the radical anti-gun lobby stands between innovation and the American people. Bestselling author Frank Minitier describes amazing breakthroughs waiting to happen in gun technology-and how gun grabbers threaten to stop progress in its tracks. In The Future of the Gun, you will learn about: Integrated electronic optics systems embedded in firearms are making them accurate in a novice shooter s hands beyond ten football fields. Controlled-expansion bullets are now being engineered to perform through bone, cinder blocks, and a lot of other mediums. Beginning with the AccuTrigger, a revolution has taken over gun trigger designs that s making rifles much more accurate. In the last two decades, over-the-counter rifles have become as accurate as custom rifles. This is due to consumer demand and new machining capabilities. Simple, ultra-reliable, cost-efficient designs from pistol makers like Glock and Beretta have made it possible to make smaller, lighter, more powerful handguns at prices (when adjusted for inflation) the world...
