Tariff Primer: A Graphic Presentation of the Fordney-McCumber Tariff, What It Is, How It Works, Whom It Benefits (Classic Reprint) (Hardback)

By Lee Francis Lybarger

Forgotten Books, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Tariff Primer: A Graphic Presentation of the Fordney-McCumber Tariff, What It Is, How It Works, Whom It Benefits Can a people be enriched by their own taxation? That is the question now confronting the American people. If a people can be enriched by the simple process of taking hundreds of millions of dollars annually out of the pockets of the Many, and pouring them into the huge pockets of the Privileged Few, then the Fordney-McCumber Tariff is the most beneficent piece of legislation in the History of the Republic. If it be true that a people can be prospered by so simple a method, then will the new Tariff lift our toiling millions out of the perils of penury and want, up into the happy realm of abundance. Were the Tariff Issue so clear and definite as above stated, it would of course have disappeared long ago from our political history. No question about that. But it is not. On the contrary, it is an issue so complex and involved, so mixed up and confused by the multiplied relations sustained even...

Reviews

The most effective publication i at any time go through. This is certainly for all those who statte that there had not been a worthy of looking at. Its been printed in an extremely straightforward way which is merely soon after i finished reading this publication where basically changed me, change the way in my opinion.
