By David Landon Tarr

Columbia-Capstone, United States, 2012. Paperback. Book Condition: New. 213 x 137 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.If you like the X-Zylo(tm), you must have this book! The amazing X-Zylo(tm) has mystified everyone. It s been said that it even amazes NASA technology experts! Why all the excitement? Because this incredible flying cylinder can be thrown more than the length of a football field. Nearly anyone can do it but no one really know why. Until now. Now some very smart people at the Massachusetts Institute of Technology (M.I.T.) show how this toy shares principles of inertial navigation with naval warships, spy planes like the SR-71 Blackbird, and other high performance machines. Amaze yourself and your friends with this essential companion to the X-Zylo(tm) itself.
