Skirmisher Publishing, United States, 2015. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Tests of Skill v.3.5 is thoroughly revised, updated, and expanded version of the innovative OGL adventure module and sourcebook originally released as a version 3.0 publication and intended as a companion volume to Experts v.3.5. This edition has been expanded by 24 pages, had its character and monster stats corrected and revised, and had added to it one new encounter, one new scenario, one new scenario outline, a section on Defects and how to use them in the game, and numerous other elements. It is intended to be enjoyed both by people familiar with the previous version and those completely new to it. Tests of Skill v.3.5 is designed to entertain and challenge players through scenarios and encounters that can be overcome optimally through role-playing, skill use, and diplomacy. While traditional hack-and-slash techniques can be used to complete portions of the scenarios, most groups will find that tact, thought, and appropriate use of skills, feats, and abilities are generally much more useful and effective. It includes numerous tips on adjudicating skill checks that can be applied to any game session. Features include: A versatile wild-land setting - the Silurian Heights - that can be used as a campaign setting or easily dropped into almost any existing milieu, including statistics on six different urban areas and local weather. More than two dozen detailed encounters, including three complete mini-dungeons and general and specific encounter tables. Three detailed scenarios and three scenario outlines that explain how to organize the included encounters into effective plot lines. 10 maps and diagrams, including player's and DM's wilderness maps, diagrams of several encounter areas, and a dungeon map based on Dwarven Forge...
